Hurricane Sandy

4

- Represented a significant use of Federal, State and local communications assets
- Multiple National Interoperability Channels were activated across the metro area. DHS-OEC (Chris Tuttle) provided coordination of activations on these common channels
- PSIC and other local agency cache radios were deployed to outside agencies for interoperability
- OIEC assets were utilized, including all 5 STR vehicles
- Civilian radios were provided to the National Guard

Hurricane Sandy

5

Hurricane Sandy

6

- Limited reports to the State of issues with public safety communication systems.
 - Mostly related to power and backhaul (telecommunications)
- Commercial telecommunications (telephone) and cellular outages
 - Telecommunications infrastructure outages due to water and wind issues, impairing connectivity to cell sites
 - OIEC worked with cellular carriers
 - ✦ Carriers provided outage information and responded with CoWs/CoLTs for public safety response and restoration needs.
 - ✦ 5 counties and 3 States provided mutual aid/EMAC assistance with COM-Ts
