§ 405.00 Permits for public displays of fireworks.

1. Definition of "permit authority." The term "permit authority," as used in this section, means and includes the agency authorized to grant and issue the permits provided in this section. The permit authority on or within state property shall be the office of fire prevention and control. The permit authority for territory within a county park shall be the county park commission, or such other agency having jurisdiction, control and/or operation of the parks or parkways within which any fireworks are to be displayed. The permit authority in a city shall be the duly constituted licensing agency thereof and, in the absence of such agency, shall be an officer designated for the purpose by the legislative body thereof. The permit authority in a village shall be an officer designated for the purpose by the board of trustees thereof and the permit authority in the territory of a town outside of villages shall be an officer designated for the purpose by the town board thereof.

2. Permits for fireworks displays. Notwithstanding the provisions of section 270.00 of this chapter, the permit authority for state property, county parks, cities, villages, or towns may grant a permit for the display of fireworks to municipalities, fair associations, amusement parks, persons, or organizations of individuals that submit an application in writing. The application for such permit shall set forth:

(a) The name of the body sponsoring the display and the names of the persons actually to be in charge of the firing of the display who shall possess a valid certificate of competence as a pyrotechnician as required under the general business law and article sixteen of the labor law. The permit application shall further contain a verified statement from the applicant identifying the individuals who are authorized to fire the display including their certificate numbers, and that such individuals possess a valid certificate of competence as a pyrotechnician.

(b) The date and time of day at which the display is to be held.

(c) The exact location planned for the display.

(d) The number and kind of fireworks to be discharged.

(e) The manner and place of storage of such fireworks prior to the display.

(f) A diagram of the grounds on which the display is to be held showing the point at which the fireworks are to be discharged, the location of all buildings, highways and other lines of communication, the lines behind which the audience will be restrained and the location of all nearby trees, telegraph or telephone lines or other overhead obstructions.

(g) Such other information as the permit authority may deem necessary to protect persons or property.

3. Applications for permits. All applications for permits for the display of fireworks shall be made at least five days in advance of the date of the display and the permit shall contain provisions that the actual point at which the fireworks are to be fired be in accordance with the rules promulgated by the commissioner of labor pursuant to section four hundred sixty-two of the labor law and that all the persons in actual charge of firing the fireworks shall be over the age of

eighteen years, competent and physically fit for the task, that there shall be at least two such operators constantly on duty during the discharge and that at least two approved type fire extinguishers shall be kept at as widely separated points as possible within the actual area of the display. For any applications made for the display of fireworks on state property, the state fire administrator shall coordinate the issuance of such permits with the head of the police or fire department or both, where there are such departments. The legislative body of a county park, city, village or town may provide for approval of such permit by the head of the police or fire department or both where there are such departments. No permit granted and issued hereunder shall be transferable. After such permit shall have been granted, sales, possession, use and distribution of fireworks for such display shall be lawful solely therefor.

3-a. Notwithstanding the provisions of subdivision three of this section, no permit may be issued to conduct a display of fireworks upon any property where the boundary line of such property is less than five hundred yards from the boundary line of any property which is owned, leased or operated by any breeder as defined in subdivision four of section two hundred fifty-one of the racing, pari-mutuel wagering and breeding law.

4. Bonds. Before granting and issuing a permit for a display of fireworks as herein provided, the permit authority shall require an adequate bond from the applicant therefor, unless it is a state entity, county park, city, village or town, in a sum to be fixed by the permit authority, which, however, shall not be less than one million dollars, conditioned for the payment of all damages, which may be caused to a person or persons or to property, by reason of the display so permitted and arising from any acts of the permittee, his or her agents, employees, contractors or subcontractors. Such bond shall run to the state if the permit is granted for a display on state property, or to the county park, city, village or town in which the permit is granted and issued and shall be for the use and benefit of any person or persons or any owner or owners of any property so injured or damaged, and such person or persons or such owner or owners are hereby authorized to maintain an action thereon, which right of action also shall accrue to the heirs, executors, administrators, successors or assigns of such person or persons or such owner or owners. The permit authority may accept, in lieu of such bond, an indemnity insurance policy with liability coverage and indemnity protection equivalent to the terms and conditions upon which such bond is predicated and for the purposes provided in this section.

5. Local ordinances superseded. (a) All local ordinances regulating or prohibiting the display of fireworks are hereby superseded by the provisions of this section. Every city, town or village shall have the power to enact ordinances or local laws regulating or prohibiting the use, or the storage, transportation or sale for use of fireworks in the preparation for or in connection with television broadcasts.

\* (b) Further, no city or county shall be bound to include "sparkling device" in the definitions of "fireworks" and "dangerous fireworks" in section 270.00 of this chapter, if such city or county shall so authorize the exemption of "sparkling device" by law. If any such city or county so elects, it and such other local jurisdictions that lie within its geographical boundaries shall not enact any other local law that is inconsistent with the provisions of subparagraph (iv) of paragraph (c) of subdivision one of section 270.00 of this chapter, nor to regulate sparkling devices in a manner that is in conflict with the

(ii) an offense greater than a class B misdemeanor for a person who shall offer or expose for sale, sell or furnish a sparkling device valued at less than five hundred dollars unless such offer, sale or furnishing is to a person less than eighteen years of age.

\* NB Effective January 21, 2018

\* (c) Notwithstanding paragraph (b) of this subdivision, any city wholly contained within the county of Orange may enact a local law to include "sparkling device" within the definitions of "fireworks" and "dangerous fireworks" as defined in section 270.00 of this chapter, notwithstanding any local law enacted by such county that authorizes the exemption of "sparkling device" from such definition.

\* NB Effective until January 21, 2018
