Juvenile Firesetter Bibliography

This is a selective list; older journal articles, older texts and items of marginal interest have been left out. Our entire catalog is on the Internet. (*Follow link from OFPC website.*) It includes indexing of journal articles from 1987-2012, which is great for locating hard-to-find information. If you can't access the catalog, we can run a search for you and print/email the results.

Need studies published in psychology journals? Many are available in full text from the New York State Library at <http://novelnewyork.org>. Expanded full-text journal coverage, grant resources and other databases may also be available - check with the Academy library staff! (We'll either do a search for you or allow you to search from Academy workstations. State employees are eligible for their own passwords - ask for details.) The NETC Library at www.LRC.FEMA.gov will also be a great help, and will lend to you!

Most items listed here are on the Library's shelves, so call numbers are provided. Exceptions (such as pamphlets, reprints, new arrivals) are noted. Anything except journals may be signed out on loan. Please feel free to ask for assistance!
