

AWR-331 WINTER WEATHER HAZARDS: SCIENCE AND PREPAREDNESS

No. of Openings: Min.25/Max 40

KINGS COUNTY

2 DAYS

NOVEMBER 23-24, 2020

NEW YORK CITY

ANNOUNCED: OCTOBER 6, 2020

Description:

Winter storms can strike every state in the United States. It is important that every community be ready for the hazards associated with them. This course assists to provide emergency managers, first responders, and community members across all sectors with a basic understanding of the latest knowledge in winter weather science, forecasting, warning, and best practices in preparedness. The course enhances the ability of participants to identify and describe the hazards associated with winter weather and to better prepare for and mitigate the impacts of snow, sleet, freezing rain, and dangerously low temperatures.

The goal of this course is to provide participants with the basics of winter weather science, forecasting, warning, and preparedness.

Who Should Attend?

The target audience for this awareness-level course includes participants across a broad spectrum of the community who need to be aware of the threat of winter weather. In particular, this should be of interest to emergency managers, first responders, small businesses, corporations, federal/state/tribal governments, NGOs, community organizations, and typical households who need to prepare and respond to hazards associated with winter storms.

This course is suitable for the following disciplines: Citizen/Community Volunteer, Education, Emergency Management, Emergency Medical Services, Fire Services, Governmental Administrative, Law Enforcement, Hazardous Material, Health Care, Public Health, Public Safety Communications, Public Works, and Security & Safety.

Location: Virtually Led via Zoom

Time: 1:00 p.m. – 5:00 p.m.

Cost: There is no fee for the course. Food, lodging, and transportation costs are the responsibility of the participant.
