

AWR-332 HAZARDOUS WEATHER PREPAREDNESS FOR CAMPUSES

NO. OF OPENINGS: MIN. 25/MAX.40
SEPTEMBER 26, 2017

WARREN COUNTY
CAPITAL DISTRICT

1 DAY
ANNOUNCED: JULY 18, 2017

Description:

Given their unique environment and needs, campuses must understand and prepare for hazardous weather well before storms threaten their communities. It is the aim of this course to equip emergency managers and campus officials with the knowledge necessary to prepare their communities for a wide variety of hazardous weather events. Many academic, government, and corporate campuses function much like small municipalities with full-time residents and support staff and face unique challenges when dealing with hazardous weather. Hurricane Sandy is a prime example of the need for full-spectrum hazardous weather preparedness on this nation's campuses. Universities and colleges in the northeast had no experience in dealing with the impacts that hurricanes can bring and many were unprepared when the storm made landfall.

This eight-hour management level course will address all-hazards weather preparedness across multiple core capabilities, including "planning", "public information and warning", "community resilience", "long-term vulnerability reduction," "risk and disaster resilience assessment," and "threats and hazard identification." These core capabilities will be discussed in detail, giving participants the tools necessary to create their own hazardous weather management plans and increase their home agency's hazardous weather resilience.

Prerequisite:

It is recommended that the participants have a general understanding of the Incident Command System and the National Incident Management System (IS-100, IS-200, IS-700, and IS-800).

Who Should Attend?

- Emergency managers
- Members of campus Incident Management Teams
- Campus officials and administrators
- Those tasked with emergency management duties.
- Students, particularly those with organizational leadership roles, who are interested in contributing to campus preparedness.

Location:

Warren County Sheriff's Office Training Room
1400 State Route 9
Lake George, NY 12845
