

EXERCISE DESIGN (G-139)

No. of OPENINGS: 30

NEW YORK COUNTY

3 DAYS

OCTOBER 29-31, 2019

NEW YORK CITY

ANNOUNCED: SEPTEMBER 3, 2019

PROFESSIONAL DEVELOPMENT SERIES - NATIONAL TRAINING CURRICULUM

Description:

Success of capabilities based exercising is the responsibility of those planning and managing exercise programs and this course will assist those responsible for delivery & evaluation in their community, agency or institution.

The Exercise Design course focuses on applying techniques in development, conduct and evaluation, for students to have the ability and understanding of how a comprehensive exercise program is used to target and improve critical emergency plans, procedures and capabilities within all phases of emergency management. This course conforms to capabilities-based exercise evaluation outlined in the Department of Homeland Security (DHS) Homeland Security Exercise and Evaluation Program (HSEEP), guidance.

Prerequisite:

Introduction to Exercises (IS-120.A) or the Full (G-146 three day or the L-146 two day) HSEEP Training Course only. Participation in the one-day modified HSEEP course will not meet the requirement for the (G-139) pre-requisite.

Please fax prerequisite to 518-322-4987 or e-mail OEM.Training@dhses.ny.gov

Who Should Attend?

Students for this course must have responsibilities in EXERCISE DESIGN/PLANNING AND CONDUCT. The course is not intended for exercise players or response personnel unless they are expected to become involved in exercise development. Organizations or communities should consider selecting core personnel who are responsible for exercise planning that can form the nucleus of an exercise design team when they return.

Completion: Participants who actively participate and attend all course days will receive a Certificate of Attendance.

Location:

Red Cross Regional Office
520 W 49th St
New York, NY 10019

Time:

8:00 a.m-5:00 p.m.

Cost:

There is no fee for the course. Food, lodging & transportation costs are the responsibility of the participant.

Topics to be discussed:

- Types, steps and design considerations for tabletop, functional, and full-scale exercises.
- Progressive accomplishments in designing and implementing an exercise program.
- Exercise Needs Assessment
- Writing Exercise objectives and scenarios
- Exercise Controllers and Simulators purpose and roles
- Tasks of systematic exercise evaluation with benefits & potential sources of exercise enhancements.
- Designing a small functional exercise using the eight step design process
