

MGT-345 DISASTER MANAGEMENT FOR ELECTRIC POWER SYSTEMS

NO. OF OPENINGS: 25 min./40 max.

NASSAU CO.

2 DAYS

MARCH 12-13, 2018

LONG ISLAND

ANNOUNCED: DECEMBER 19, 2017

Description:

The Texas Engineering Extension Service (TEEX) will be offering this course. This course provides students with information specific to preparing for, protecting against, responding to, recovering from, and mitigating against a threatened or actual natural disaster, an act of terrorism, or other man-made disaster affecting electric power facilities and systems.

Course Description:

During this course, participants will be guided through discussions and exercise that will assist them in:

- Improving security against physical damage, organizational disruption, and control system vulnerability
- Enhancing the electric power systems ability to plan, prevent, detect, respond, and restore their facilities in emergency situations
- Developing an understanding and appreciation for working with the media.

Prerequisites:

There are no prerequisites for this course.

FEMA Student ID Requirement

Prior to course delivery, the hosting jurisdiction for the class shall inform all participants of the FEMA requirement to establish a [FEMA Student Identification Number \(SID\)](#). This can be accomplished by registering at FEMA's [website](#). Participants will be asked to provide their SID when they arrive and complete the registration process for the course.

Participants are encouraged to take the online courses IS 100, IS 700.A, and IS 800 at <http://training.fema.gov/IS/NIMS.asp> before attending this course.
