

## MGT-345 DISASTER MANAGEMENT FOR ELECTRIC POWER SYSTEMS

No. of OPENINGS: 25 min./40 max.

NASSAU COUNTY

2 DAYS

JANUARY 17-18, 2019

LONG ISLAND

ANNOUNCED: JULY 17, 2018

### Description:

The Texas Engineering Extension Service (TEEX) will be offering this course. This course provides students with information specific to preparing for, protecting against, responding to, recovering from, and mitigating against a threatened or actual natural disaster, an act of terrorism, or other man-made disaster affecting electric power facilities and systems.

### Objectives:

During this course, participants will be guided through discussions and exercise that will assist them in:

- Improving security against physical damage, organizational disruption, and control system vulnerability
- Enhancing the electric power systems ability to plan, prevent, detect, respond, and restore their facilities in emergency situations
- Developing an understanding and appreciation for working with the media.

### Prerequisites:

There are no prerequisites for this course.

Participants are encouraged to take the online courses IS 100, IS 700.A, and IS 800 at <http://training.fema.gov/IS/NIMS.asp> before attending this course.

### FEMA Student ID Requirement

Prior to course delivery, the hosting jurisdiction for the class shall inform all participants of the FEMA requirement to establish a [FEMA Student Identification Number \(SID\)](#). This can be accomplished by registering at FEMA's [website](#). Participants will be asked to provide their SID when they arrive and complete the registration process for the course.
