

MGT-348 MEDICAL PREPAREDNESS AND RESPONSE TO BOMBING INCIDENTS

NO. OF OPENINGS: 25Min./100Max
MARCH 14-15, 2018

NEW YORK CITY

2 DAYS

ANNOUNCED: NOVEMBER 7, 2017

Description:

The Texas Engineering Extension Service (TEEX) will be offering this course. This course addresses medical preparedness for and response to blast effects through a combination of lectures, small group activities and tabletop participant exercises. Participants completing this course will gain an enhanced understanding and awareness of issues and considerations relating to a bombing incident.

Prerequisite:

You must be a US Citizen to take this course. **If you are not please let us know by emailing for further instruction.**
OEM.TRAINING@DHSES.NY.GOV

Core Objectives:

Deliver and sustain a safe and effective response to bombing incidents;
Explain how to apply the lessons learned from the London bombing to help prevent and/or respond to a possible local bombing incident;
Identify and explain the threats posed by terrorists' use of explosives against U.S. domestic targets;
Identify commonly used explosives;
Recognize and identify indicators of an imminent attack;
Recognize bombing injuries and identify appropriate treatment;
Perform patient triage throughout bombing incident response, and engage in exercises involving triage; and
Safely conduct appropriate preventive, preparatory, and response actions during both the pre and post detonation periods of a bombing incident.

Location: Greater NY Hospital Association
15th Floor Conference Center
555 W. 57th Street
New York, NY 10019
