

## MGT-439 PEDIATRIC DISASTER RESPONSE AND EMERGENCY PREPAREDNESS

NO. OF OPENINGS: MIN: 25/MAX: 40

WESTCHESTER COUNTY

2 DAYS

DECEMBER 18-19, 2019

EASTERN HUDSON VALLEY

ANNOUNCED: AUGUST 2, 2019

### Description:

This course prepares students to effectively, appropriately, and safely plan for and respond to a disaster incident involving children, addressing the specific needs of pediatric patients in the event of a community based-incident. Pediatric specific planning considerations include mass sheltering, pediatric-triage, reunification planning and pediatric decontamination considerations. This is not a hand-on technical course, but instead a management resource course for stakeholders like pediatric physicians, emergency managers, emergency planners and members of public emergency departments like EMS, Fire, Police, Public Health and Hospitals in field of disaster response and preparedness work.

### Course Objectives:

At the end of this course, participants will be able to:

- Recognize the issues likely to arise within the pediatric population during disaster events.
- Describe relevant Emergency Management (EM) considerations when planning for the care and management of the pediatric population following a disaster event.
- Describe considerations in a disaster event that are unique to the pediatric population, as well as the impact of those considerations on planning and response efforts.
- Describe and discuss effective planning and preparation in addressing the requirements of the functional access needs pediatric population in a disaster event.
- Describe relevant mass sheltering considerations when planning for the care and management of the pediatric population following a disaster event.
