Initial Response to Active Shooters (IRAS)

October 10-11, 2017

State Preparedness Training Center

Course Description

Initial Response to Active Shooters (IRAS) is a basic active shooter course designed to prepare law enforcement officers for an initial response to an Active Shooter Event (ASE) but also applies to other types of Aggressive Deadly Behavior (ADB). First arriving officers will need to establish incident command or decide to relinquish command, choosing instead to make entry or establish a contact team to engage the shooter(s). This course emphasizes techniques and tactics that will allow officers to quickly and decisively engage attackers and mitigate the threat. The instructors will stress the “why” with each tactic taught so that students can choose the best tactic for the given situation. The tactics will range from room clearing, hallway movement, team movement, to stairway clearing.

Topics Include

Anatomy of an Active Shooter Event and Aggressive Deadly Behavior, Tactical Mindset, Clearing Operations, Skill Lanes, and Scenarios.
