

PER-211 MEDICAL MANAGEMENT OF CBRNE EVENTS

No. of OPENINGS: 30 MIN. / 40 Max.

SUFFOLK COUNTY

2 DAYS

JULY 17-18, 2018

LONG ISLAND

ANNOUNCED: APRIL 27, 2018

Description:

The Texas Engineering Extension Service (TEEX) will be offering this course. Participants completing this program will be able to properly perform patient triage, decontamination, treatment and transportation in the event of exposure to chemical, biological, radiological, nuclear and explosive (CBRNE) weapons. The course consists of facilitated discussions, small group exercises, hands on activities and task orientated practical applications. Course participants will use both state- of-the-art adult and pediatric human patient simulators to promote critical thinking skills while utilizing RAPID- Care concept.

Topics:

- Environmental factors and protective issues for both first responders and the public
- Planning for potential consequences of a CBRNE incident
- Recognizing and identifying CBRNE agents and their physiological effects on the human body
- Recognizing and identifying CBRNE agents and their physiological effects on the human body
- Appropriate self-protection measures and measures necessary to limit patient cross-contamination
- Assessment of adult and pediatric patients
- Basic decontamination considerations
- Appropriate triage methods during a CBRNE or terrorist incident
- Response to an incident involving CBRNE
- RAPID-Care concepts
