

PER-331 SURFACE TRANSPORTATION EMERGENCY PLANNING AND SECURITY FOR SENIOR OFFICIALS

No. of Openings: Min: 12/Max: 25

NASSAU COUNTY

1/2 DAY

OCTOBER 17, 2019

LONG ISLAND

ANNOUNCED: AUGUST 1, 2019

Description:

The STEPS-SR course offers an executive level introduction to the roles and responsibilities of preparedness, prevention, and response to emergencies involving surface transportation freight and passenger systems. It will provide a clear overview of freight and passenger system threats facing jurisdictions/organizations of public and private officials and the organizational structure that must be implemented according to the NRF in an incident. There will be special emphasis on National Special Security Events (NSSE's). Executives will learn to identify threats and vulnerabilities of freight (including flammable/combustible liquid transportation) and passenger system operations within their jurisdictions/organizations, learn to recognize and prioritize the importance of facility and conveyance hardening, receive familiarization with the NIMS/NRF to prioritize organizational immediate actions and response operations, and learn how to develop and apply management/planning tools for flammable/combustible liquids incidents and counter Improvised Explosive Devices (IED) operations and evacuations.

Course Objectives:

At the conclusion of this course participants will be able to:

- Identify how an accident, a natural disaster, an intentional act, and/or national event will be evaluated in effort to gain federal resources as a situation exceeds the resources of local governments.
- Identify the principles of the National Response Framework relating to emergencies involving surface transportation systems.
- Given examples of an incident involving surface transportation systems identify the agencies or agency most likely to provide assistance to local officials.
- Examine three primary emergencies that affect surface transportation systems.
