Training Announcement: Unmanned Aircraft System (UAS): Part 107 Preparation Course

November 20th—21st, 2019

State Preparedness Training Center

Course Description

This course is designed to help Public Safety officials successfully prepare to take their FAA Part 107 Exam in order to support their agency's Unmanned Aircraft System (UAS) program. This course will focus on content covered in the Part 107 exam (outlined below) and will emphasize content areas that are less intuitive and can be difficult to understand without instructional support. Best practices, tips, and lessons learned in terms of preparation for the 107 exam will be covered. Candidates for this course should plan on taking their 107 Exam within 4-6 weeks of the course. Please note that completion of this course does not guarantee that a participant will successfully pass their 107 exam.

The course will include some introductory flight time for participants, utilizing the SPTC's training drones.

Topics Include

This course will cover the 12 knowledge areas that are on the Part 107 exam, including UAS regulations, airspace classification, weather issues and concerns, UAS weight and loading, emergency procedures, crew resource management, radio communications management, determining the performance of small UAS, physiological effects of drugs and alcohol, decision-making and judgement, airport operations, maintenance, and pre-flight inspection procedures.

Course Provider

This course is being taught by a team of instructors from the NYS Department of Environmental Conservation (DEC) UAS program.
