Creating an E-Grants Application

Electronic Submission Notice

The New York State Division of Homeland Security and Emergency Services (DHSES) encourages the electronic submission of applications for grant funding as this method expedites the process, reduces the amount of paper materials involved in the grant award process, and minimizes the possibility of clerical errors.

By submitting an application electronically through E-Grants, it is unnecessary to forward any materials to DHSES. However, by submitting electronically, the applicant agrees that

1. The application is made with the full knowledge and consent of the official authorized to enter into contracts on behalf of the municipality or agency and agrees to comply with the requirements set forth in 'New York State Division of Homeland Security and Emergency Services Certified Assurances for Federally-supported Projects: Certifications Regarding Lobbying; Debarment, Suspension and Other Responsibility Matters; and Drug-Free Workplace Requirements'

2. Upon receiving an award, the applicant shall comply with all applicable federal, state, and local statutes, rules and regulations and

3. Once the applicant receives an award, a contract will be developed based upon the information contained within the application, but the fully executed contract is the only document binding on the parties.

Before any application is submitted by a municipality or agency, the authorized signing official should read and agree to abide by provisions of the following documents which become a part of resulting contracts:

1. 'Appendix A: Standard Clauses for all New York State Contracts' and

2. 'Appendix A1: Agency-specific Clauses' (for DHSES).

3. 'Appendix C: Payment and Reporting Schedule'

It is important to note that DHSES may suspend funding, in whole or in part, terminate funding for, or impose another sanction on a grantee if it appears that the electronic submission of an application did not comply with the above requirements.

DHSES strongly recommends that the applicant:

1. Print the pertinent documents listed above - accessible at <http://www.dhSES.ny.gov/grants/>

2. Ensure review of the documents and signed approval by the authorized signing official.

3. Retain the documents for future reference. Do not send them to DHSES.

If an award is made and a contract is subsequently developed from the application, the contract package that is sent to the official for signature will contain the required documents.

Accept

The Electronic Submission Notice must be read and acknowledged before accessing the system. Once you have read the notice, please click the **Accept** button and the login screen will appear.

HINT: Since this is a web-based system you will be timed out after 30 minutes of inactivity and will lose any unsaved material. Hit **SAVE** often. Also, if you have a lot of narrative to enter into E-Grants, type the information into a Word file and then copy and paste the verbiage into E-Grants.

IMPORTANT INFORMATION:

Do not open two E-Grants windows at the same time to copy information from one application into another.

If you want to copy and paste information from a previous E-Grants application, please copy the information into a Word document first. It can cause system errors that may affect your grant application if you have two E-Grants windows open at the same time.

Hint: See slide 61 for instructions on how to view and print your entire application.

The screenshot shows a web browser window displaying the login page for the New York State Division of Homeland Security and Emergency Services E-GRANTS SYSTEM. The page has a dark blue header with the state seal on the left and the division's name on the right. Below the header, the text "E-GRANTS SYSTEM" is centered, followed by a welcome message. A prompt asks the user to enter login information, with fields for "Login Name:" and "Password:". A "Submit" button is located below the password field. At the bottom, a note states: "New users, please email **DIUSES** to set up and validate a new account." The browser's status bar at the bottom shows "Done" on the left and "Local intranet | Protected Mode: Off" on the right, along with a 100% zoom level.

Generic Workplan Information

Below is the generic workplan information that you will use in the E-Grants system.

Project goal – Make necessary improvements and provide for sustainment of Land Mobile Radio Systems (LMR), implementation and maintenance of components supporting interoperability, continuous training and exercise, sustainment and further development of the governance structure. Enhance emergency response and improve capability and performance results from the U.S. Department of Homeland Security's (DHS) National Emergency Communication Plan (NECP), improvements in governance structures, operating procedures, infrastructure development and addressing SAFECOM guidance from the U.S. Department of Homeland Security Office of Emergency Communications (OEC).

G&T Workplan Code – 14. Develop/enhance interoperable communications system.

Investment Justification – Not Applicable

Objective Description – To ensure progress towards the goals and milestones described in the Statewide Communications Interoperability Plan (NYS SCIP) and toward communication priorities identified by the Federal government (SAFECOM). Provide stability, sustainment and further development of LMR systems and regional solutions developed to date. Provide for the: development and coordination of National Interoperability Channels, State, Regional, Tribal and Local mutual aid channels; development of interoperable communications infrastructure; improvements of Public Safety Answering Points (PSAPs) toward Next Generation 911 (NG-911) development in accordance with New York State plan and vision; development of governance and SOPs; Development of inventory of statewide communications resources (i.e. continuous participation in CASM-Communications Assets Survey and Mapping tool) and Tactical Interoperable Communication Plan (TICP) development, update and utilization.

NYS Critical Capability – Not Applicable

Task – Purchase allowable interoperable communication equipment and/or acquire services and/or provide maintenance. Train appropriate personnel in the proper use of equipment and place equipment into service. Establish or improve governance and standard operating procedures related to such equipment. Report on progress of implementation of project and the development and implementation of formalized standard operating procedures and governance structure.

Performance Measure – Identify equipment ordered and received and/or services acquired and/or maintenance activities conducted. Provide a brief narrative on the training of personnel and the deployment of equipment and/or activities conducted. Provide a brief narrative, including examples, of formalized governance and/or standard operating procedures. Describe how the project enhanced interoperable communication capabilities in the jurisdiction. Describe how the project increased multi-agency regional partnerships, including partnerships with consortiums. Equipment and services accountability records are properly maintained.
