

Course Description

G-2300 Intermediate Emergency Operations Center Functions

Description

The G-2300 Intermediate Emergency Operations Center Functions is a three-day course with the goal of assisting individuals and jurisdictions who desire to develop or improve their Emergency Operation Centers (EOC). This three-day course is designed to examine the role, design, and functions of the EOC. By the end of the course, students will be able to demonstrate, through activities and a Final Exam, the managerial and operational roles of the modern-day EOC as a NIMS Command and Coordination functional group operating within a Multiagency Coordination System (MACS). The course will also:

- Provide training about staffing, organization, information, systems, communications, and equipment needs at the EOC, such as activating and deactivating operations, as well as training and exercising.
- Focus on the role of an EOC as one of four NIMS Command and Coordination Structures.
- The materials were developed with the assumption that audience members may have little or no actual experience as a member of an EOC Staff.

Course Objectives:

- Explain the EOC's critical link to the other NIMS Command and Coordination Structures.
- Identify EOC staffing solutions by aligning EOC Skill Sets to common EOC structures.
- Explain the planning, operational and resourcing functions of the EOC.
- Using a scenario, identify the essential elements of information (EEI) that support EOC decision making and information sharing.
- Using a scenario identify changes in EOC activation level, staffing, resources and information requirements for an expanding incident.
- Identify the role of an EOC during the transition to recovery.
- Explain the location, design, equipment and technology considerations for the EOC.

Prerequisites:

- IS-100: An Introduction to the Incident Command System, ICS 100
- IS-700: An Introduction to the National Incident Management System
- IS-800: National Response Framework, An Introduction
- IS-2200: Basic Emergency Operations Center Functions

Length: 24 Hours

Target Audience:

- Fire Service
- Law Enforcement
- Emergency Management
- Public Works Departments
- Public Health Organizations
- Medical Emergency Teams
- Hospitals
- Non-Governmental Organizations

Cost:

There is no fee for the course. Other cost considerations are detailed in each LMS course offering.
