FirstNet Award...

Has not happened yet. Had been publicized as planning to occur around November 1st, but it has been delayed.

How long? We don't know. NY has no control over this Federal process.

Does it affect the State Plan schedule? We don't know (yet).

State Plan Evaluation Process

We have been developing a State Plan evaluation process.

- Core group of SME to evaluate entire plan
- Regional Meetings with stakeholders for input
- 90 days **total** time from FirstNet delivery of Final State Plan to Governor's decision

When this will occur is dependent on FirstNet's schedule.

SLIGP 2.0

- NTIA announced a new grant concept, SLIGP 2.0
- Current SLIGP grants end around 01/2018. Might be right around/just after State Plan decision
- NTIA concept is to use unexpended funds to issue a new grant opportunity in 2017, which would start right as current SLIGP (1.0) ends – allowing uninterrupted outreach and planning.
- Still a few months away from anything concrete.

Next PSBB WG Meeting

Was planning to hold it after award – to discuss award and impacts.

But given the delays, we may schedule one (WebEx) regardless of award date...discuss evaluation process to get comments.

Activities

- 155.205 – add to EMS naming guideline as NYMED205.
 - Would be for the next Board meeting
- Review existing guidelines and determine if any updates or corrections are needed.

- Reminder: National Interoperability Repeaters must be OFF when not in active IO use.
- Reminder: Base/Repeater stations must be licensed in all cases!
 - Only mobiles and portables are licensed by rule.
