

Matthew Delaney

Radio Engineer

Matthew Delaney has nearly 20 years of experience in land mobile radio communications. He began his communications career with a radio communications service/dealer providing technical service to public safety customers, including 24/7 on-call support for mobile, portable and base station service. His State career started in 2004 with the Office for Technology, where he served in an engineering role on a large LMR procurement and implementation. In 2010 he transferred to the newly created NYS Division of Homeland Security and Emergency Services' Office of Interoperable and Emergency Communications (DHSES-OIEC). At DHSES-OIEC, Matthew works on such projects as the FirstNet national public safety broadband network, Mutualink interoperability platform, emerging technologies, mobile and portable LMR radio programming and interoperable guideline development.

Matthew holds a Bachelor of Science degree from the University at Albany and lives with his wife in the Albany, NY area. In his free time, he enjoys all things physical sciences and nature, including meteorology, astronomy, and hiking. He has held an amateur radio license for 29 years.
