## Course Description

### AWR-213 Critical Infrastructure Security and Resilience Awareness

#### Description

This course will introduce participants to the key terms, policy, guidance, and preparedness efforts required to safeguard the Nation's critical infrastructure. Participants will review applicable policy and guidance, discuss the risk management framework, describe Federal critical infrastructure security and resilience and information sharing programs, and relate critical infrastructure programs to individual actions.

Primary focus will be placed on local preparedness efforts as they relate to the national approach to critical infrastructure security and resilience. An understanding of the national approach to critical infrastructure enables critical infrastructure stakeholders to address local planning within a common framework. Informed planning is consistent with and expands on nationally accepted emergency management standards as the basis for planning across the mission areas of prevention, protection, mitigation, response, and recovery.

#### Course Objectives

- Identify the sectors with assets within their jurisdiction, the Sector Specific Agency(ies) for those sectors and the impact of the National Preparedness Report (NPR) on sector assets.
- Summarize the National Infrastructure Protection Plan (NIPP) risk management framework and the knowledge of varying sector and asset-specific risk management tools and resources.
- Summarize the information included in a Sector Risk Snapshot.
- Determine the specific high-level threats and hazards to local Critical Facilities (CF) assets.
- Identify the dependencies and interdependencies of the CF sector.
- Identify sector assets, threats and hazards of significant concern and concern, and dependencies and interdependencies of sector assets.

#### Prerequisites

You must be a US Citizen to take this course. If you are not please let us know by email for further instruction at OEM.TRAINING@DHSES.NY.GOV

All participants must have a FEMA Student Identification (FEMA SID) number. Students can search for their existing/create a new FEMA SID at: https://cdp.dhs.gov/femasid/.

### Length: 8 Hours

#### Target Audience:

- Critical Infrastructure owners, operators, and managers
- Federal, State, local, regional, tribal and territorial government officials and managers
- Sector-Specific Agency Managers
- Other organizations and managers with critical infrastructure responsibilities

#### Cost:

There is no fee for the course. Other cost considerations are detailed in each LMS course offering.
