

AWR-231 Prevention of and Response to Suicide Bombing Incidents

Course Description:

The Prevention of and Response to Suicide Bombing Incidents, Mobile course is designed to provide emergency first responders with the skills to prevent and respond to suicide bombing incidents. Emergency first responders are presented with information on how to prevent, deter, and mitigate the effects of a suicide bomber along with active suicide bomber and post-blast response strategies. Throughout this course, emergency first responders discuss the Nine Phases of Bombing Attack, to understand the steps a suicide bomber follows to conduct their attack; understanding these steps is critical to the successful prevention of a suicide bombing attack.

Course Objectives:

At the end of this course, participants will be able to:

- Recognize the history of and the threat posed by suicide bombing to the United States and its communities.
- Identify Suicide Bomber Improvised Explosive Devices (SBIED) components, and SBIED delivery methods.
- Identify suicide bomber methods of operation and interdiction opportunities using the Nine Phases of a Bombing Attack.
- Identify pre-detonation and post-detonation suicide bomber response strategies including scene health and safety.

Prerequisites:

You must be a US Citizen to take this course. **If you are not please let us know by email for further instruction at OEM.TRAINING@DHSES.NY.GOV**

FEMA Student ID Requirement

Prior to course delivery, the hosting jurisdiction for the class shall inform all participants of the FEMA requirement to establish a [FEMA Student Identification Number \(SID\)](#).
