

MGT -341 Disaster Preparedness for Healthcare Organizations

Description:

The Disaster Preparedness for Healthcare Organizations Within The Community Infrastructure course provides information specific to healthcare organizations vulnerability to a disaster. During this FEMA sponsored course, participants will be introduced to the various natural, technological, and civil hazards to which healthcare organizations may be vulnerable and the potential impacts of those hazards.

Federal guidelines and legislation that serve to aid in the preparedness for, and response to, incidents involving these hazards are discussed, as are current emergency management standards for the healthcare community. Participants review response and recovery issues that should be addressed by medical facilities and organizations in preparation for a large-scale incident, including identification of critical resources necessary for response and recovery.

Course Topics:

- Threats to the Community
- Fundamentals of Preparedness
- Preparing the Response
- Preparing the Recovery
- Assessing Preparedness

Prerequisites:

You must be a US Citizen to take this course. **If you are not please let us know by email for further instruction at OEM.TRAINING@DHSES.NY.GOV**

All participants must have a FEMA Student Identification (FEMA SID) number. Students can search for their existing/create a new FEMA SID at: <https://cdp.dhs.gov/femasid/>.

Length: 16 Hours
