

PER-355 Radiation Instruments Employment

Description:

This course uses a series of drills designed to reinforce the skills of emergency responders, who have received training in the use of radiation detection instruments. This course is applicable to both the prevent and response mission areas.

CTOS provides instruments for training purposes; attendees are encouraged to bring their own department's instruments if possible. This course uses sealed radioactive sources to provide realism.

Course Objectives:

- Demonstrate the required tasks for the radiation detection equipment used during the training evolutions, as identified on the equipment Job Performance Requirements (JPRs) for each detection instrument.
- Using assigned detection instrument(s) and Participant Instrument Supplement(s), Participants will meet the JPRs for the equipment.

Prerequisites:

- You must be a US Citizen to take this course. **If you are not please let us know by email for further instruction at OEM.TRAINING@DHSES.NY.GOV**
- All participants must have a FEMA Student Identification (FEMA SID) number. Students can search for their existing/ create a new FEMA SID at <https://cdp.dhs.gov/femasid/>
