

## Course Description

### MGT-324 –C Campus Emergencies Prevention, Response, and Recovery

#### Description:

The goal of this course is to assist the campus community and the neighboring jurisdiction in developing the necessary decision-making skills to prevent, protect, mitigate the effects of, respond to, and recover from an active shooter situation or other campus emergency.

The course consists of small, problem-based, integrated group activities that require a coordinated, integrated approach to solve. Through a tabletop scenario, course participants will observe a developing active shooter incident and respond in a manner consistent with currently established campus and jurisdictional emergency operations procedures.

This course is customized for a one-day presentation consisting of eight hours. It was designed with an emphasis on active shooter situations at school campuses, including K-12 schools, community colleges, colleges, and universities.

#### Course Objectives:

- Describe how this course will benefit them.
- Assess threats and hazards in their campus communities.
- Describe the process and key components of developing campus emergency plans.
- Use the Incident Command System to integrate and coordinate a response to a campus emergency.
- Summarize the critical role of communications during an emergency.
- Identify challenging inhibiting recovery following a campus emergency.
- Describe how an all-hazards approach is required to successfully prevent, respond to, and recover from a campus emergency.
