Hazard Mitigation Grant Program | Section 404

The Federal Emergency Management Agency (FEMA) Hazard Mitigation Assistance (HMA) program provides funding after a state receives a Presidential Declaration. Section 404 of the Stafford Act authorizes the Hazard Mitigation Grant Program (HMGP).

HMGP funding supports long-term hazard mitigation measures that enhance the State's resiliency, avoid loss of life, increase sustainability and reduce damages to property.

Hazard Mitigation is any action taken to reduce the long-term risk to people or property from natural hazards and their effect.

Hazard Mitigation Assistance (HMA) Unified Guidance 2015:

HMGP Application Development | Best Practices

- HMGP Project supports the Notice Of Funding Opportunity (NOFO) priorities
- Detailed Scope of Work (SOW) with a project description that:
 - Clearly states identified problem the project is attempting to mitigate
 - Clear narrative about how the identified problem will be mitigated (project specifics)
 - Anticipated mitigation outcome (benefits of mitigation action)
- Detailed anticipated budget and timeline
 - To include cost sharing details
 - Pre-award costs
- Provide relevant supporting documentation (maps, engineering studies, etc.)
- Clear, consistent and relevant data

HMGP | Cost Share

Cost Share

The non-federal cost share may consist of cash, donated or third-party in-kind services, materials, or any combination thereof.

- **HMGP funding provides up to 90%** reimbursement of eligible costs, not to exceed the award. The remaining 10% non-federal match will be the responsibility of the subapplicant. The non-federal cost share may consist of cash, donated or in-kind services, materials, or any combination thereof.
- **In-kind services** (or materials) may be used toward the 10% non-Federal match
- **Other Federal funds cannot be used toward the non-Federal match**
