

MGT- 415 Disaster Recovery in Rural Communities

Description:

This 8-hour course teaches community leaders and emergency managers in rural communities how to plan for and execute disaster recovery efforts. Upon implementation, this course will assist rural communities with expediting disaster recovery efforts and facilitating the long-term economic success of their communities. Examples from Hurricane Katrina and towns devastated by tornadoes will be used as case studies to examine why communities were successful or unsuccessful in their recovery efforts.

Course Objectives:

- Identify the phases of response, short-term, and long-term recovery and the important concepts of the National Disaster Recovery Framework, the National Response Framework, the Whole Community Approach to Disaster Recovery, and Recovery Support Functions, in relation to rural recovery.
- Understand and apply the principles and strategies for pre-disaster recovery planning and disaster mitigation.
- Apply critical thinking skills to a post-disaster scenario; differentiate between response and recovery tasks; and implement and manage short-term and intermediate disaster recovery.
- Implement a 7-step process for initiating long-term community recovery
- Evaluate LCTR projects, prioritize them, and articulate recovery visions to the community.
- Select LCTR leaders, identify and procure project/recovery funding, implement a LCTR plan, and maintain community investment in recovery goals.
