

**TRAINING ANNOUNCEMENT:**

# **Critical Asset Risk Management (MGT-315)**

## **State Preparedness Training Center**

### **Course Description**

This course teaches the critical components of risk management and provides participants with the basic fundamentals of determining and mitigating the risk associated with their critical infrastructure. Through a combination of lecture, facilitated discussion, and group activities, participants will learn how threats, vulnerabilities, and consequences determine risk. Participants are given an opportunity to practice the fundamentals of conducting vulnerability assessments by conducting on-site assessments of select local facilities. Additionally, they will identify potential mitigation measures associated with their findings and work together to develop and present a risk management report. Individuals completing this course in combination with MGT-310, MGT-414, and AWR-213 will be awarded an Infrastructure Protection Certificate through TEEX.

### **Course Topics**

This course includes an overview of the risk management process, threat and hazard identification, asset valuation, vulnerabilities, risk assessment, mitigation mission area, and on-site risk assessment.
