

TRAINING ANNOUNCEMENT:

Threat and Hazard Identification and Risk Assessment (MGT-310)

State Preparedness Training Center

Course Description

This course will prepare participants to conduct a jurisdictional Threat and Hazard Identification and Risk Assessment (THIRA). Participants will identify threats and hazards of jurisdictional concern, give those threats and hazards context, establish capability targets, and determine how to apply the THIRA results. By using the THIRA process, stakeholders will develop a strategy to allocate resources and establish mitigation and preparedness activities. THIRA-informed planning is consistent with and expands on nationally-accepted emergency management standards as the basis for planning across all mission areas. Individuals completing this course in combination with MGT-315, MGT-414, and AWR-213 will be awarded an Infrastructure Protection Certificate through TEEX.

Course Topics

This course includes a THIRA overview, threat and hazard identification, contextualization of threats and hazards, the establishment of capability targets, the application of THIRA results, an overview of the THIRA toolkit, and a primer on the use of the THIRA in national preparedness efforts.
