

Training Announcement

**Fire Prevention
and Control**

Firefighter Contamination Reduction and Cancer Prevention

Description: Occupational cancer due to firefighting is a silent killer. Firefighters face a 9% increase in cancer diagnoses and a 14% increase in cancer related deaths. Unlike many tragic events that take firefighters' lives, many firefighters are dying due to firefighting related cancers. Unfortunately, many of these deaths often go unnoticed. Learn how to take steps to help prevent these deaths from occurring. The New York State Office of Fire Prevention and Control has announced a major initiative to help protect its staff, New York State's firefighters, and their families from the occupational threat of cancer. The initiative is a combination of awareness and education about the cancer threat with actions and policies that help to reduce the threat. A decon kit will be provided to each station that is in attendance at this training.

Location: Ulster County Community College
Jack Rose Lecture Hall
491 Cottekill Road
Stone Ridge NY 12484

Dates: June 5, 2023

Times: 7:00 pm - 9:00 pm

Pre-requisites: None

Registration: Register through the portal at <https://LMSPortal-dhSES.ny.gov>.
Click **HERE** to go directly to the registration for this class.

Contact Info: Email us at nysffwellness@dhSES.ny.gov with any questions.

Download TAL: <https://www.dhSES.ny.gov/system/files/documents/2022/11/2022tal.pdf>
TALs are required to be uploaded into LMS for all OFPC classes.
