

## **Training Announcement: All Hazards Logistics Section Chief (LSC) Course (L-967)**

**June 22<sup>th</sup> – 26<sup>th</sup>, 2026 (5 days)**

**State Preparedness Training Center**

### **Introduction and Background**

The primary goal of the NIMS ICS All-Hazards Position Specific Training Courses is to provide all-hazards competencies and behaviors for Command and General Staff and selected Unit Leader personnel who are members of an existing or developing Incident Management Team (IMT). Competencies in the training are focused around the ability of the student to assume specific position responsibilities, lead assigned personnel, communicate effectively, and to ensure the completion of assigned tasks in order to meet identified objectives for the position. Personal qualifications to serve as members of IMTs are designed to consider a combination of training, operational experience during exercises or actual incidents, job shadowing, field mentoring, and administrative requirements.

### **Course Description**

This course is designed to provide emergency responders with an understanding of the duties, responsibilities, and capabilities of an effective Logistics Section Chief on an Incident Management team.

### **Target Audience and Student Selection Criteria**

NIMS ICS Position Specific training should be completed by personnel who are regularly assigned to functional, support, or unit leader positions on USFA or other Type III All-Hazards Incident Management Teams (AHIMT), or by those persons who desire to seek credentials/certification in those positions.
