NEW YORK STATE | Homeland Security and Emergency Services | State Preparedness Training Center

Unmanned Aircraft Systems (UAS) Special Event Series: Night Flight Course

November 4, 2026

Course Description

This course is designed to provide public safety officials an introductory opportunity to safely fly small unmanned aircraft systems (UAS) at night to support their agency's program. We will address the increased risk associated with flying at night by providing participants both ground instruction and practical flight experience necessary mitigate risk as much as possible. Participants will learn the key differences between planning and executing sUAS flights at night vs during the day.

Workshop Topics

The ground portion of this course will cover topics specifically related to operating under Part 107 at night, including UAS regulations, human factors associated with night ops, additional equipment requirements, and risk management techniques/best practices. Flight training will provide participants an opportunity to see first-hand how different the world looks at night vs during the day. Flying will be the main focus of this course, allowing participants maximum opportunity to experience night flight with a focus on launch/landing area preparation, positional awareness, crew coordination, and obstacle avoidance.

Course Provider

This training opportunity is provided by the New York State Division of Homeland Security and Emergency Services (DHSES) in conjunction with Department of Environmental Conservation, The New York State Police, and NUAIR.

Location

State Preparedness Training Center (SPTC)
5900 Airport Road Oriskany, NY 13424

Cost

There is NO FEE for this course. Dinner will be provided. Travel and all other meals are the responsibility of the course participant.

Times

Check In: 4:30pm - 5:00pm. Course: 5:00pm - 11:00pm

Target Audience

Participants must be first responders or other public safety officials who participation is sponsored by their agency and whose focus is on gaining training and experience to perform their duties at this agency. Interested candidates for this course must have their FAA Part 107 certification at the point of registration for this course.

Attendees will have the option to bring their own quadcopter style sUAS, capable of at least 15 minutes of flight time, equipped with a camera, and require night flight lighting. Additional sUAS batteries and a battery charging station are also required. A laptop computer is highly desirable. The SPTC will provide you with the Autel Evo 2 if you are unable to bring your own.

This course is limited to 12 students. The New York State Division of Homeland Security and Emergency Services (DHSES) reserves the right to determine eligibility for this course.
