

Course Description

AWR-219 Site Protection through Observational Techniques

Description

This course helps public safety personnel improve their observational techniques by using a four-step ongoing screening process—assessing, identifying, evaluating, and acting. Participants will examine each step of the process and apply the concepts to fictional scenarios, photographs, and videos. At the end of this course, participants will be able to better recognize, communicate, and act upon suspicious behaviors that could indicate a terrorist attack.

Course Objectives

- Explain the importance of identifying pre-operational activities.
- Use active observation skills to enhance situational awareness.
- Identify behaviors and activities that may be associated with a violent attack.
- Choose an appropriate course of action based on their evaluation of an individual's behaviors.
- Apply concepts learned in this course to real-world scenarios.

Prerequisites

You must be a US Citizen to take this course. If you are not please let us know by email for further instruction at OEM.TRAINING@DHSES.NY.GOV

All participants must have a FEMA Student Identification (FEMA SID) number. Students can search for their existing/create a new FEMA SID at: <https://cdp.dhs.gov/femasid/>.
